RAAZIA MEHMOOD

CS Undergraduate · FAST University

Objective

Motivated CS undergraduate at FAST University (4th Semester), passionate about building real-world software — from OOP games in C++ to data dashboards in Python. Seeking internships where I can contribute, collaborate, and grow as a developer.

Featured Projects

FIFA 22 Player Analytics Dashboard ★ 1

[Pandas Plotly Scikit-learn Streamlit](#)

Interactive data dashboard analyzing 18,000+ FIFA 22 players. Features ML-powered performance predictions, clustering, and live Streamlit UI with charts. Showcases data science pipeline end-to-end.

[View on GitHub →](#)

Adventure Quest Game (OOP in C++) ★ 2

[OOP Classes Inheritance Game Logic](#)

Text-based adventure game built with full OOP design — classes, inheritance, polymorphism, and encapsulation. Demonstrates strong command of C++ fundamentals through engaging gameplay mechanics.

[View on GitHub →](#)

Currency Converter (Live Web App) ★ 1

[HTML CSS JS Fetch API](#)

Responsive currency converter using live exchange-rate API. Clean UI with instant conversion, multi-currency support, and smooth UX. Demonstrates front-end skills and API integration.

[View on GitHub →](#)

Stair Lighting System (Arduino IoT) ★ 1

[Arduino UNO IR Sensors Hardware C](#)

Smart stair lighting prototype using Arduino UNO and IR sensors. Motion-triggered LEDs with auto-shutoff. Physical hardware project demonstrating embedded systems and electronics knowledge.

Achievements

◆ CM Punjab Laptop Scheme

Selected on academic merit — government recognition for top students.

◆ Honhar Scholarship

Merit-based scholarship awarded for outstanding academic performance.

◆ TED Talk Speaker

"Time Illusion: How Social Media Hacks Our Brain into Procrastination" — FAST University.

◆ Peer Mentor

Voluntarily taught C++ basics to junior students in extra sessions.

◆ Event Volunteer

Assisted in event management & registrations at Daria 2025, FAST University.
